

## COMMUNITY RELATIONS

### Community Use of School Facilities and Grounds

School facilities in the District have been provided primarily for the education of the students. They may, however, be made available to the community for education, civic, cultural, and other non-commercial uses consistent with the public interest when such use does not interfere with the school program or school-sponsored activities.

Student and school-related organizations and municipalities shall be granted the use of school facilities at no cost. Other organizations granted use of facilities shall pay fees and costs as approved by the Board of Education.

The Superintendent shall develop a Quality Process to manage community use of school facilities which shall be reviewed and approved by the Board. Any use of school facilities requires the Superintendent's approval and is subject to the applicable Quality Process.
