

STUDENTS

GOALS AND OBJECTIVES

Students are the first concern of the District. All policies and actions of the Board of Education and of the staff should be directed toward promoting the educational welfare of the children of the District. One of the major tasks of the educational program shall be to assist each student in becoming self-sufficient in utilization of decision-making processes and techniques, eventually becoming responsible for determining his/her own learning purposes and the reasons for achieving them. To this end the Board and staff shall work together to establish an environment conducive to the maximum development of each student through commitment to the following goals:

1. To provide a learning program for the District's students which considers their various backgrounds, capabilities, learning styles, interests and aspirations.
2. To protect and observe the legal rights of students.
3. To enhance the self-image of each student by treating each student with respect and by providing meaningful, engaging learning activities which promote intrinsic motivation on the part of the student.
4. To provide the opportunity for students to learn personal and civic responsibility for their actions through meaningful experiences as school citizens.
5. To deal with students in matters of discipline in a just and constructive manner.
6. To provide for the safety, health and welfare of students.
