

OPERATIONAL SERVICES

SAFETY PROGRAM - FIRE PREVENTION

The District shall comply with the provisions of the Illinois School Code relating to safety requirements for school buildings and with the further specifications of the Illinois State Board of Education which are generally known as the Health/Life Safety Code For Public Schools. Protective measures shall be taken to insure that there are minimal fire hazards in and around the buildings of the District.

Along with structural safeguards, however, must come an awareness and a vigilance on the part of the persons responsible for the use and maintenance of the buildings.

Regulations covering such matters as the use and storage of combustible materials, smoking in the buildings, the use of electrical equipment, good housekeeping practices, etc., shall be disseminated and the responsibility for their observance shall be clearly fixed by the Superintendent.

LEGAL REF.: Illinois School Code, Sec. 2-3.12 (105 ILCS 5/2-3.12).

Adopted: March 10, 1983
Revised: June 10, 1999
