

## PERSONNEL

### PROFESSIONAL PERSONNEL - STUDENT TEACHERS

Opportunities shall be provided to students from college and university approved teacher-training programs to do student teaching and internships in the District. The Superintendent or his or her designee shall be responsible for screening the qualifications of each candidate, and for the orientation, assignment and training program of each accepted candidate. The Superintendent shall request the approval of the Board of Education prior to accepting a student into the District's student teaching program.

Student teachers shall be assigned to competent supervisors whose qualifications are acceptable to the student's college or university. A supervising teacher shall be assigned only one student teacher each school year.
